

From The Heart

♥ Schools Project

Did you know?

100 million people need a wheelchair worldwide, but can't afford one. 30 million are children and 90% of them are unable to go to school.

Raise Awareness – Make a Difference

More than 50 schools in East Bay are participating in the From the Heart project which is designed to:

1. Raise awareness about the need for mobility in the world,
2. Sensitize students to the issues faced by people with all types of disabilities, and
3. Raise money to provide wheelchairs to those in need.
